SAMSUNG

features of your new MP3 Player

Good looking. Smart. Reliable. And lots of fun. Your new MP3 player is all this and more. Its state-of-the-art technology delivers rich sound, and vibrant pictures. You'll love your new MP3 player, whether you're exercising, downloading your favorite tunes, watching videos, or even listening to FM Radio.
Use it once, and you'll wonder how you ever lived without it.

PUTTING THE "MULTI" IN MULTIMEDIA

We call it an MP3 player, but it's much more than that. It allows you to view pictures, text, videos and listen to FM radio.
The built-in Bluetooth wireless technology turns your MP3 player into your own personal network.

TOUCH NAVIGATION!

You can tap on the touch screen to navigate through the menus.

COLOR LCD SCREEN DESIGN

Vivid color and images are delivered on the wide LCD screen.

WHERE FORM MEETS FUNCTION

Sure, it's sleek and good-looking. But it's easy to hold and use, too.

EASY SEARCH!

You can search for files with the easy-to-use File Brower, and also navigate through menus while listening to music.

LONGER PLAY TIME AND SHORTER DOWNLOADING!

A fully charged battery can play up to 35 hours of music and 5 hours of video.
Download times are shorter. Because of its USB 2.0 capability, the player is much faster than models with USB 1.1.

ACOUSTIC WONDER

Your new MP3 player has built-in DNSe™ (Digital Natural Sound engine), Samsung's unique sound technology created to deliver richer, deeper sound for an unbelievable listening experience.

safety information

This manual describes how to properly use your new mp3 player.
Read it carefully to avoid damaging the player and injuring yourself.
Pay particular attention to the following serious warnings:

PROTECT YOURSELF

- Do not disassemble, repair, or modify this product on your own.

CAUTION
- Do not get the product wet or drop it in water. If the product gets wet, do not switch it on because you could get an electric shock. Instead, contact a Samsung Customer Service Center at 1-800 SAMSUNG.

CAUTION
- Do not use the earphones while you are driving a bicycle, automobile or motorcycle.
It can cause a serious accident, and furthermore, is prohibited by law in some areas.
Using the earphones while walking or jogging on a road, in particular, on a crosswalk can lead to a serious accident.

- For your safety, make sure the earphone cable does not get in the way of your arm or other surrounding objects while you are taking exercise or a walk.

WARNING
- Do not place the product in damp, dusty, or sooty areas because these environments could lead to fire or electric shock.

PROTECT YOURSELF

⚠ WARNING
- Using earphones or headphones for an extended time may cause serious damage to your hearing.
  If you are exposed to sound louder than 85db for an extended time, you may adversely affect your hearing. The louder the sound is, the more seriously damaged your hearing may be (an ordinary conversation is between 50 to 60db and road noise is approximately 80db). You are strongly advised to set the volume level to medium (the medium level is usually less than 2/3 of the maximum).
- If you feel a ringing in the ear(s), lower the volume or stop using the earphones or headphones.

PROTECT YOUR MP3 PLAYER

⃠
- Do not leave the player in temperatures above 95°F (35°C), such as a sauna or a parked car.
- Do not cause excessive impact on the player by dropping it.
- Do not place heavy objects on top of the player.
- Prevent any foreign particles or dust from entering into the product.
- Do not place the product near magnetic objects.

★
- Be sure to backup important data. Samsung is not responsible for data loss.
- Use only accessories provided by or approved by Samsung.

⚠ CAUTION
- Do not spray water on the product. Never clean the product with chemical substances such as benzene or thinner, as it may cause fire, electric shock or deteriorate the surface.

⚠ CAUTION
- Failure to follow these instructions may lead to physical injuries or damage to the player.

Ⓜ NOTE
- When printing this user manual, we recommend that you print in color and check "Fit to Page" in the print option for better viewing.

using bluetooth

WHAT IS BLUETOOTH?

Bluetooth is an industry specification that describes how Bluetooth-compliant stereo headsets, mobile phones, and external devices can easily interconnect with each other using a short wireless connection.

 - **The Bluetooth device can cause a noise or malfunction, depending on the use conditions.**
   - Physical signal interference, for instance, if you hold the player in the hand and wear a stereo headset in your ears.
   - When a part of the body is in contact with the receiving/transmitting system of the player or the stereo headset.
   - Electrical variation from electrical jamming by the wall, corner or office partitioning.
   - Electrical interference from the same frequency-band devices including medical equipment, microwave oven and wireless LAN.
 - **When pairing the Bluetooth device with the player, make it within as short distance as possible.**
 - **The farther the distance between player and stereo headset is, the worse the quality is. If the distance exceeds the limit, the communications are disconnected.**
 - **We do not recommend you use text and picture view modes while listening to the music with the stereo headset as it can cause deterioration of both player performance and Bluetooth communications.**
 - **Depending on the model of the stereo headset, files less than 32 KHz can not be played.**
 - **In poor reception-sensitivity areas such as inside an elevator or underground, the Bluetooth connection may not work properly.**
 - **The maximum distance that enables wireless connection between the player and the Bluetooth device is 32.8 feet. The connection will be automatically cut off if the distance is out of this range. Even within this range, the sound quality may be deteriorated by obstacles such as walls or doors.**

USING A BLUETOOTH STEREO HEADSET

You can use a Bluetooth stereo headset to let you enjoy music with high quality stereo sound, all without wires!

★ ▪ **Before you start -** Ensure that the Bluetooth device to connect is ready for pairing. (refer to the device's user manual)

To register the Bluetooth Stereo Headset

(you only need to register it once)

1. Tap the 🅑 **icon** on the main menu screen.
   ▪ The Bluetooth settings window appears.

2. Tap **<Yes>**.
   ▪ The <Bluetooth Mode> is set to <On>.
   ▪ The ⁎ icon will light.

3. Set the stereo headset ready for pairing.
   ▪ To set the headset ready for the pairing mode, refer to the headset's user manual.

4. Tap **<Stereo Headset>**

5. Tap the **[🔎] icon**.
   ▪ This player automatically starts to search for any Bluetooth device even if the [🔎] icon was not pressed.
   ▪ The headset to be registered will be listed.

4. Play a file of your choice.
   - You can listen to the music using a stereo headset.
NOTE
- If you can't find the desired headset to connect, register it first. See page 90
- If you turn off the player or the headset, and then turn it on, the bluetooth communication may be disconnected. If you want to listen to the music again using the stereo headset, repeat the instructions above.
- When two headsets are connected, the first-connected headset alone can be enabled for functional operation such as play/stop and volume control. For more information, refer to the headset's user manual.

troubleshooting

If you have a problem with your new mp3 player, check for a solution in this list. If the problem persists, contact Samsung Customer Service at 1-800-SAMSUNG (1-800-726-7864).

PROBLEM	SOLUTION
Power will not turn on.	• Power will not turn on if the battery is completely drained. Recharge the battery and turn the power on again. • Press the Reset hole.
Buttons do not work.	• Check if the ◄HOLD **switch** is in the direction of the arrow position. • Ensure that you press the right button and icon before trying. • Press the Reset hole.
The screen will not turn on.	• The screen may not be visible under direct sunlight. • When **\<Display Off\>** is selected from **\<Settings\>** → **\<Display\>**, the touch screen will be turned off. Tap any button or on the screen and see if it turns on.
Power is turning off.	• Check the battery status. • The power is automatically turned off when the battery is completely drained. Recharge the battery. • If **\<Auto Power Off\>** is selected from **\<Settings\>** → **\<System\>**, the Power will be turned off when the player is in Pause mode for the set time period. Turn on the Player.

PROBLEM	SOLUTION
Battery life differs from the manual.	• The battery life can vary depending on the sound mode and display setting. • Battery life may be shortened when the player is left for extended periods in low or high temperatures.
Media Studio Program Malfunction	• Check if your PC meets the basic system requirements.
Connection to your PC is disabled.	• Check if the USB cable is correctly connected and try again. • Press **<Start>** on the toolbar of your PC to run Windows Update. Select Key Updates and Service Packs, then update all. Reboot your PC and reconnect.
The file transfer rate is too slow.	• If you are running multiple programs including <Media Studio> on your PC, the file transfer rate will be slow. Exit unnecessary programs and try transferring again.
Player isn't playing.	• Check if the available file has been saved in the memory. • Check if the music file is damaged. • Check if there is enough battery power.

PROBLEM	SOLUTION
File upload doesn't work.	• Check if the USB cable is securely connected. Reconnect if necessary. • Check if the memory is full. • Press the Reset hole.
Files or data are missing.	• Check if the USB cable has been disconnected during file or data transmission. If this is the case, it may cause serious damage not only to files/data but also to the product. You have to be extra cautious as Samsung is not responsible for data loss.
Abnormal play time display during play.	• Check if the file is in Variable Bit Rate (VBR) format.
Abnormal display of file name.	• Go to **<Settings>** → **<Language>** → **<Contents>** in the Main Menu screen and set an appropriate language.
The product is hot.	• Heat may be generated during recharging. This has no effect on the product life or functions.
A message appears while watching a video.	• Try to download the video clip through Media Studio again.
Bluetooth connections could not be made.	• Check if the stereo headset is Bluetooth-certified. The mono hands-free headset is not supported. • The Bluetooth connection can be set off if you turn the player or stereo headset off and on. In this case, try to connect again.
